Bangladeshi

MOTIVE

A thoughtful and quick learning individual, looking for an opportunity in your reputed organization which will help me deliver my best and upgrade my skills in engineering and meet the demands of the organization. So, I can completely use my ability of critical thinking, Problem-solving, development and information of Data Science, Machine Learning, Artificial Intelligence to make an important expansion to the association alongside lifting my profession. I prefer to adopt new things in allocated time frame. Always ready to accept new challenges, have ability to think out of the box and love to lead energetic team members who shares their valuable ideas and work hard to make them live.
